

Still Hopes Coronavirus (COVID-19) Statistics

All figures are as of March 3, 2021

Here at Still Hopes we wish to be as transparent as possible when it comes to our Coronavirus statistics. We closely monitor the county positivity rates for both Richland and Lexington counties to guide our actions as they relate to the Coronavirus pandemic. Still Hopes looks to DHEC in regards to Coronavirus statistics and numbers.

The current county positivity rate for Lexington County is **5.7%**. The current county positivity rate for Richland County is **4.5%**. While we monitor both positivity rates, we mostly look to Lexington County because that is where our campus is physically located. *Since these positivity rates are below 10%, all applicable departments are devising plans for a gradual return to normalcy here on our campus. Once these plans are finalized, they will be communicated to you.*

Below, please find the number of active cases on our campus, as well as total numbers to date.

Current Total Active Cases

Apartment & Cottage Residents	Health Care Residents	Team Members
0	0	1

Total Cases to Date (Since March 2020)

Apartment & Cottage Residents	Health Care Residents	Team Members
13	8	129

For context, please know that Still Hopes usually has around 185-200 Apartment and Cottage residents. Still Hopes usually has around 100-115 Health Care residents, and we have over 600 staff members.

For staff and residents who received their first dose of the COVID vaccine a few weeks ago, CVS has pledged to return on March 5 to administer the second dose. Tacey will be in touch with the residents who need their second dose.

Please call Stephanie Parker at (803) 739-5002 with any questions.
